ELPHIN DIOCESAN CENSUS 1749

Introductory Note

The Elphin Diocesan Census was taken in 1749 at the behest of Edward Synge, Bishop of Elphin.

This census covers fifty one parishes in the county of Roscommon, nine parishes in the county of Galway and thirteen parishes in the county of Sligo, arranged by parish, townland, name of heads of households, (some including the christian name of householders wife), religion, profession, number of their children and the number of servants.

For the purpose of convenience this census has been divided into two volumes, each having its own list of parishes covered.

The original manuscript is held at the National Archives Office Ireland under the reference number 1A 36 13.

Names with the prefix Mc, Fitz and O are indexed by the first letter following.

Letters underlined indicate a name being spelt with or without the letter.
