

TRANSCRIPTS OF COUNTY CORK PARISH REGISTERS

By

MICHAEL LEADER, F.I.G.R.S.

A few years ago I started transcribing the Church of Ireland Parish Registers for County Cork. In a talk to the Society, I expressed the hope that other genealogists might be induced to do the same for their own counties. Whether this is in fact, being done I do not know, but the only volunteer I have heard of turned out to be interested also in County Cork. The result has been that my particular work has gone ahead far faster than I could then have hoped. Miss Rosemary ffollott is not only transcribing on her own but is also typing the transcriptions.

I would like to take this opportunity to repeat the hope that other genealogists will do for their counties what is being done for the parish registers of County Cork; I should also be very grateful if any member would show me any extracts he may have from County Cork parish registers—particularly if the originals have been destroyed.

The following list is not a list of extant Cork Registers; and the dates shown are not necessarily all those extant of any particular parish. They are simply the dates which we have so far transcribed and which Miss ffollott has typed. The system we have been following is for her to retain one copy, the second to go to the incumbent of the parish and the third typescript is at my house and, as I said in my talk, members of the Society are welcome to come and look at them. Now that there are well over 2,000 typed foolscap pages it is really very difficult for me to find time to deal with queries myself—as a general search would take hours.

My thanks must go out to so many people in County Cork and elsewhere, without whose help the transcribing could never even have been started, that it is impossible to mention here any names in particular.
